A word from the Chairman

IVES didn't stand still in 2021, on the contrary. The association confirmed its leadership in the ever growing Open Access movement. It succeeded in cultivating a community which realizes the importance of research and its free dissemination, and the benefit of communication and exchange of experience between academia and practitioners in order to advance the grape-wine industry as a whole. The increasing number of members and partners is a testimony of its successful strategy. The 3 journals published by IVES saw a continuous improvement in 2021. OENO One, the peer-reviewed scientific journal, offered a record number of articles, the highest of all specialized grape-wine journals. IVES Technical Reviews received the OIV Award in the category "Technical Publications", thus validating its strategy and its quality. The third journal, IVES Conference Series, was launched in 2021 with the objective to provide free access to high-level international scientific congresses.

The dedicated and skilled staff of IVES guaranteed that the association remained and will remain a valuable resource for free information and a responsive platform for innovative interaction.

The new work group "strategy" created this year will allow IVES to anticipate future challenges thus assuring its leadership role.

Without the continued support of our members and partners IVES would not be able to offer this free service to the grape-wine community and to contribute to the Open Access movement. Thank you.

Roland Riesen

IVES' conferences portal

Launched in February 2021, IVES Conference Series is a vine and wine online Open Access portal for sharing scientific knowledge, results and data presented during high-level international scientific conferences.

- More than 1,200 proceedings (abstracts, articles, videos and podcasts) published and available with Open Access.
- ▶ 7 international partner conferences so far & more to come in 2022.
- ▶ ~7,500 views of all conferences homepages in 2021.

CONFERENCES COVERED SO FAR

- Macrowine: 2021
- International Terroir Congress:
 2020, 2016, 2014, 2012, 2010, 2008, 2006, 2004 & more to come
- GiESCO: 2019OENO IVAS: 2019
- Enoforum web conference: 2021
- Wine vision 2040
- Merano wine festival: 2020

... and more to come in 2022

PROCEEDINGS ARE FREELY AVAILABLE ON:

@IVES Conference

IVES' working groups

In 2020, the IVES executive board reviewed the activities of its first term and decided to expand the opportunities for the **academic members** to contribute to the strategic development of IVES. To that end, it identified **3 key topics** and proposed to establish **3 working groups** to deal with them in depth.

→ Group 1: Members and partners

Represented by Astrid Forneck (Boku, University of Natural Resources and Life Sciences)

Aim: to discuss and clearly define IVES' membership and partnership policy.

→ Group 2: Editorial board of OENO One

Represented by Markus Rienth (Changins)

Aim: to fine-tune the editorial policy of the journal (appointment of new associate editors, updating of the aims and scopes, propose clear guidelines for associate editors, reviewers) and imagine potential improvements of the OENO One website.

▶ Group 3: Communication

Represented by Claire Guyot (IVES)

Aim: to sharpen the communication strategy and develop tools for its implementation.

The first 3 working groups made their way with enthusiasm and success since their initiation. The first results were presented at the 2021 General Assembly; IVES' chart of ethics for partnerships, appointments of new associate editors for OENO One, aims and scopes.

To be launched in 2022 > Group 4: Strategic development

Represented by Jean-Philippe Roby (Bordeaux Sciences Agro)

Aim: to stay ahead by anticipating future challenges early.

ALL IVES MEMBERS ARE INVITED TO PARTICIPATE IN THESE WORKING GROUPS!

Communication

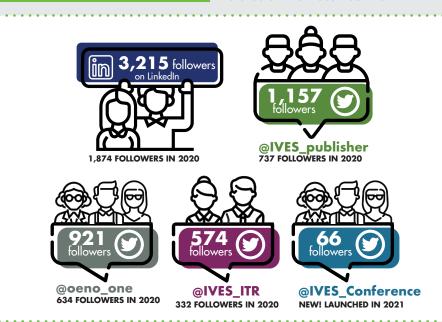

In 2021, communication was a priority for IVES. We wanted to increase our visibility by boosting our actions in this field. We tried to disseminate more information about the articles published in our journals and about the life of the association, while offering contents with attractive visuals. The page layouts of the journals were also updated.

Monthly newsletter

- **2,157** subscribers in 2021, 1,629 in 2020.
- A new design was created to promote the published articles and proceedings.

> Social media: LinkedIn and Twitter Data as of mid-December 2021

▶ News about OENO One and IVES Technical Reviews

- In 2021, the team worked on the design of new layouts for OENO One and IVES Technical Reviews. These new layouts will be launched in 2022.
- ▶ Since 2021, OENO One and IVES Technical Reviews printed journals are sent by post to IVES' members and partners every 3 months.
- Reviewers are thanked for their involvement by receiving a bottle of wine. This represented approximately 120 bottles of wine sent in 2021.

> Setup of a toolbox for IVES' members and partners

- A "Communication toolbox' is available on our website. Thus, members and partners can use it to promote IVES' activities and their support to the Open Access movement!
- ▶ What is available? A booklet, logos and descriptions.
- Discover it on www.ives-openscience.eu/contact
