

About us

The **International Viticulture and Enology Society**

(IVES) is an academic association founded in 2017

by a group of leading universities and research institutes.

It aims to make the results of scientific research in the field of viticulture and enology freely available to researchers and professionals.

To make this possible, with **Open Access and independently of private publishers**, IVES publishes articles and contents on free online platforms.

IVES publishes three Open Access media:

OENO One (peer-reviewed research journal),

IVES Technical Reviews (peer-reviewed multilingual technical journal) and **IVES Conference Series**

(a portal collating contents from conferences).

OENO
VINE AND WINE
OPEN ACCESS JOURNAL
One

Launched in 2016, OENO One is a peer-reviewed research journal in the field of vine, grape and wine sciences. It replaced the *Journal International des Sciences de la Vigne et du Vin* after almost 50 years of existence.

IVES Technical Reviews
vine & wine

Launched in 2020, IVES Technical Reviews is a tool to transfer current research to end users. Articles are sourced from scientific and technical journals and are reviewed by two members of the journal's editorial board before publication. They are published online in six languages.

IVES Conference Series
vine & wine

Launched in 2021, this new portal aims to collate proceedings from international conferences in viticulture and enology and share them online.

All current partnerships are listed on www.ives-openscience.eu

How to join us?

Become an academic member or
a private/institutional partner
of IVES for an **ANNUAL FEE**

 **of 4,500 €/YEAR**

Why should my university/research institute become a member?

IVES is led by 24 universities and research institutes⁽¹⁾ and is looking for more members in order to increase its network. By joining IVES, your university or institute will become a major actor in Open Access publishing in viticulture and enology and will contribute to a model of knowledge dissemination which is totally independent of private publishers.

Join the vine and wine Open Access movement!

By becoming an academic member, you will contribute to the management and development of IVES and its journals with a right to vote at the yearly General Assembly and the possibility for a representative to participate on the Board of Directors.

Why should my company/institution become a partner?

Because if you join the 34 partners⁽¹⁾ which support IVES, you will be able to promote your R&D activities and your brand worldwide.

By getting involved with the IVES Technical Reviews editorial board, you will have the unique opportunity to network with researchers and colleagues.

As a partner of IVES, you will also participate in the yearly IVES Science meeting, where you will meet other partners and researchers who have had their work recently published in our journals.
