A word from the Chairman

2020 marks the 4th year of IVES' existence. Thanks to the support of our members, partners, my fellow board members and the enthusiastic and creative staff it was another successful year in which we were able to advance with exciting projects and confirm IVES as an internationally recognized association by academia as well as industry. The unique partnership between academia and industry is best illustrated by the IVES OENO One Science Meeting which aims at presenting and discussing highly relevant topics, sharing experience, expertise and ideas, and developing common strategies to face current and future challenges. For this year's meeting we were welcomed by Hennessy at Cognac which provided us with the perfect atmosphere for interesting and stimulating exchanges. The positive feedback from the participants encourages us to continue with this successful platform. At the General Assembly the new journal IVES Technical Reviews, destined at wine professionals, was launched. It digests scientific articles and condenses them onto 2 pages thus meeting the needs of the industry for critical scientific information in a short format. OENO One, the first IVES journal launched in 2016, continued on its successful way. Its Impact Factor increased to 2.831, the second highest of all grape-wine journals in only its 4th year of existence. More articles were published in IVES journals are now free of charge for the readers as well as the authors. Strong relationships with major congresses such as Giesco and Terroir were created which will allow us to further increase the free access to the most recent scientific information. All this was only possible due to the commitment and hard work of our staff which we were able to increase to 3 full-time equivalents, and to the financial support of our members and partners. Always seeking innovative ways to improve and to increase the participation of our members and partners, three work groups addressing current issues and the future strategy of IVES were created. The first results will be presented at the 2021 General Assembly and OENO One Science Meeting. Even though the current situation is challenging for us as well we remain optimistic. We are ready to meet the challenges and find creative solutions as a united group. IVES will remain a responsive association listening to its members and partners.

Roland Riesen

Partners and Members

The categories of members and partners have been clarified by the decision of the General Assembly.

They are now divided into the following sections:

► Academic members

Universities or Research Institutes, mostly publicly funded (4500 €/year)

► Private partners

Any private company wishing to support the movement (4500 €/year)

► Institutional partners

Any publicly funded institution, association or institute that does not fall into the category of academic members (4500 €/year)

► High visibility partners

Any private partner participating in the translation fees of papers published in IVES Technical Reviews (10 000 €/year)

NEW ACADEMIC MEMBERS:

UBC Wine Research Centre,
Vancouver, Canada
École d'Ingénieurs de Purpan,
Toulouse, France

NEW PRIVATE PARTNERS:

Gallo Winery
Modesto, California, USA
Château Montrose
Saint-Estèphe, France
Merano Wine Festival
Bolzano, Italy

NEW INSTITUTIONAL PARTNER:

Bureau National Interprofessionnel du Cognac
Cognac, France

NEW HIGH VISIBILITY PARTNER:

Moët-Hennessy
Épernay, France

The current list of members and partners is available on the website: www.ives-openscience.eu

Communication

In 2020, communication was a priority for IVES. We wanted to increase our visibility by boosting our actions in this field. We tried to disseminate more information about the articles published in our journals and about the life of the association, while offering contents with attractive visuals.

► Websites

www.ives-openscience.eu gathers information about the association. It is updated very regularly (e.g. content available: presentation of the journals, summaries of the articles published each month, presentation of our members and partners, etc.).

Our journals, **IVES Technical Reviews** and **OENO One**, have their own independent web-platforms that are also very good communication media.

► Newsletter & social media

The **monthly newsletter** provides information on the latest articles published. It also contains general information about the life of the association.

IVES is also active on **social media** (Twitter and LinkedIn). Communication on these media has increased in recent months, allowing our community of followers to grow. The number of interactions (likes, shares...) with the posts has also improved, highlighting an active community.

IVES' research journal

- **OENO One** is a peer-reviewed research journal in the field of vine, grape and wine sciences.
- Manuscripts are evaluated by qualified reviewers selected by the editors-in-chief and associate editors.
- In 2020, the editorial board was composed of **2 editors-in-chief** and **63 associate editors**.

- ▶ It received a 2019 **impact factor*** of **2.831**.
- We feel that we are entering a new era for OENO One, with an IF among the highest of all vine and wine journals in the world.

*IF 2019: (citations in 2019 to items published in 2017 and 2018) / Number of citable items in 2017 and 2018

- ▶ **153** articles **submitted** in 2020**
- → 94 submissions in 2019 and 52 in 2018

**Articles submitted are not necessarily published the same year.

- ▶ **80** articles **published** in 2020
- → 53 articles published in 2019 and 30 in 2018
- → 9 articles published in cooperation with the International Terroir Congress 2020 (Adelaide, Australia)
- → Rejection rate: 45 % in 2020

- ▶ All articles are freely available on the website: oeno-one.eu
- → Average of 19 867 articles views / month in 2020 - 13 692 views per month in 2019

4 NEW ASSOCIATE EDITORS

elected by the editorial board

Isabelle Masneuf-Pomarède
University of Bordeaux, France

João Carlos Andrade Dos Santos
Universidade de Trás-os-Montes e Alto Douro, Portugal

Denis Thiery
Inrae, France

Maurizio Ugliano
University of Verona, Italy

IVES' technical journal

IVES Technical Reviews vine & wine

IVES Technical Reviews was launched in **February 2020**.

The objective of the journal is to provide high quality scientific content to professionals in their native language.

The editorial board is constituted of **72 researchers and professionals** of the wine industry in equal shares. All the articles published are previously reviewed by at least two members of this board. This process guarantees scientific quality and robustness of the sources on one hand and consistency of the format, angle, presentation of the results and scientific level with our readers' expectations on the other hand.

▶ **40** articles in **6** languages

have been published so far.

→ Articles are published in English, French, German, Italian, Spanish and Portuguese.

▶ **28** articles were published in 2020

(12 in 2019).

▶ All articles are freely accessible on the website: ives-technicalreviews.eu

▶ A new kind of partnership, the "**High Visibility Partnership**", was created for companies willing to contribute to the translation costs.

In return, the companies are mentioned in each article published by the journal: "The translation of this article into (name of the language) was offered to you by (name of the company)".

▶ **IVES Technical Reviews** received an **OIV award** in the category "Technical publication multi categories" rewarding the quality of the journal and the valuable contribution of IVES to the professional community.
