A word from the Chairman

I am happy to look back at 2022. Just a quick glance because it's equally important to look ahead. IVES continued to grow in 2022, in every respect. Thanks to its 3 online Open Access media - OENO One, IVES Technical Reviews and IVES Conference Series - it has proven to be a reliable and trusted source for free information for everybody with a vested interest in the science and general knowledge of grapes and wines and in their practical application. The number of readers, members and partners increased again which is a show of confidence and the confirmation of the value and the strategy of IVES. The networking opportunities were particularly appreciated as researchers and practitioners had the desire and the pleasure to exchange and share, a crucial element IVES is committed to. The number of submissions and published articles in OENO One hit a new record high confirming its leadership among the specialized grape-wine journals. In the process, its Impact Factor increased to 3 for the first time, an unambiguous sign of its notoriety. IVES Technical Reviews had around 100,000 different readers, an 8-fold increase over 2021, and IVES Conference Series closed agreements with many major grape-wine conferences after only one year since its launch, with over 2,000 documents available. Looking ahead, IVES is preparing for the future of the rapidly changing publishing landscape, always committed to serve the needs of its members and partners. Stay tuned.

Roland Riesen

Members and partners

► New academic members

- Australian Wine Research Institute - AWRI (Australia)
- Fresno State University (USA)
- Oregon Wine Research Institute – Oregon State University (USA)
- Weincampus Neustadt – DLR Rheinpfalz (Germany)

► New private partners

- Atelier Melka (USA)
- Bodem Bodegas (Spain)
- Cain Vineyard and Winery (USA)
- Domaine Louis Latour (France)
- ETS Laboratories (USA)
- Paradigm Winery (USA)
- Trisaetum Winery (USA)

► New institutional partners

- Institut français de la vigne et du vin - IFV (France)
- Napa Valley Vintners (USA)

► New high visibility partner

- Sogrape (Portugal)

General Assembly & IVES Science Meeting

Every year IVES organises 3 highlights: the **General Assembly** of the association, **meetings of the editorial boards** and the **IVES Science Meeting**, dedicated to scientific and technical conferences.

GENERAL ASSEMBLY AND EDITORIAL BOARDS

In 2022, due to the pandemic, the **General Assembly** of IVES and the **editorial board meetings** of the journals were held in February 2022 through videoconference.

IVES SCIENCE MEETING

The **IVES Science Meeting 2022** was held on 16 and 17 June 2022.

This annual private event is dedicated to the members and partners of the association. It allows professionals from the wine and vine fields to take part in the life of the association and to network with colleagues and researchers. In 2022, our members and partners had the opportunity to meet at **Château Brane-Cantenac** (Gironde, France).

The first day was dedicated to **scientific conferences** and ended with a **wonderful tasting of our partners' wines**. During this event, 6 speakers presented their work, recently published in our journals *OENO One* or *IVES Technical Reviews*.

Thank you to the speakers **Thibaut Verdenal**, **Florence Fontaine**, **Gonzaga Santesteban**, **Maria Paissoni**, **António Graça** and **Antonio Morata** for the quality of their presentations.

Thank you to Henri Lurton and the entire team of **Château Brane-Cantenac** for their welcome and support.

Thank you also to the team of **Château Pichon Longueville Comtesse de Lalande** (Gironde, France), who offered us a guided tour on the second day.

IVES' research journal

OENO One is a peer-reviewed research journal in the field of **vine, grape and wine sciences**. Manuscripts are evaluated by qualified reviewers selected by the editorial board.

Articles are published online with **Open Access** and are accessible for free.

In 2022, the editorial board was composed of **2 editors-in-chief** and **72 associate editors**.

5 NEW ASSOCIATE EDITORS ELECTED BY THE EDITORIAL BOARD

- **Alain Deloire** (Montpellier Supagro, France)
- **Stefania Savoi** (Department of Agricultural, Forest, and Food Sciences, University of Turin, Italy)
- **François Delmotte** (Inrae, Bordeaux, France)
- **Olivier Viret** (Direction générale de l'agriculture, de la viticulture et des affaires vétérinaires, Switzerland)
- **Maria Tizania Lisanti** (Department of Agricultural Sciences, University of Naples Federico II, Italy)

Key figures

- ▶ **188** submissions in 2022 vs 149 in 2021.
- ▶ **98** articles published in 2022 vs 88 in 2021.
- ▶ Acceptance rate: **53 %** in 2022.

Calculation based on articles submitted in 2022 and which have received an editorial decision by 31 December 2022.

- ▶ **470,000** visits on oeno-one.eu in 2022 vs 92,083 in 2021.

- ▶ **285,000** unique visitors in 2022 vs 62,200 in 2021.

- ▶ **Impact factor of 3.000 / CiteScore: 3.3.**

- ▶ **Special issue: Terclim** (14 articles), **Macrowine** (2 articles so far).

IVES' technical journal

IVES Technical Reviews is a peer-reviewed technical journal. Its objective is to provide high quality scientific content to professionals in their native language. In 2022, the editorial board was constituted of more than **70 researchers** and **professionals** of the wine industry in equal shares.

Articles are published online with **Open Access**.

Thanks to the support of high-visibility partners, articles are available in **6 languages** (English, French, German, Italian, Spanish and Portuguese) and are accessible for free.

HIGH VISIBILITY PARTNERS

IVES' work groups

The IVES executive board decided to expand the opportunities for the academic members to contribute to the strategic development of IVES. To that end, it identified 3 key topics and proposed to establish **3 work groups**. In 2022, a forth work group has been launched to stay ahead by anticipating the challenges early.

▶ Group 1: Members and partners

Represented by Roland Riesen (IVES)

Aim: to discuss and clearly define IVES' membership and partnership policy.

▶ Group 2: Editorial strategy of OENO One

Represented by Markus Rienth (Changins)

Aim: to fine-tune the editorial policy of the journal (appointment of new associate editors, updating of the aims and scopes, propose clear guidelines for associate editors, reviewers) and imagine potential improvements for OENO One.

▶ Group 3: Communication

Represented by Claire Guyot (IVES)

Aim: to sharpen the communication strategy and develop tools (documents, videos) for its implementation.

▶ Group 4: Strategic development

Represented by Jean-Philippe Roby (Bordeaux Sciences Agro)

Aim: to anticipate the challenges early and to build IVES' strategy.

ALL IVES MEMBERS ARE INVITED TO PARTICIPATE IN THESE WORK GROUPS!

Communication

TEAM

► In 2022, **Léa Cabrol** joined the IVES team for an internship and a 4-month contract. With a master's degree in science communication, she helped the team to launch new formats (videos, posters) to promote IVES and its journals.

MONTHLY NEWSLETTER

mid-DECEMBER 2022 > 2,600 subscribers

mid-DECEMBER 2021 > 2,160 subscribers

AVERAGE

35 %
opening

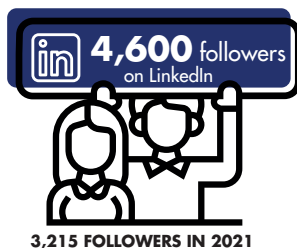

40 %
clicks per newsletter

► 2,600 subscribers in 2022, 2,160 in 2021, 1,629 in 2020.

SOCIAL MEDIA (Twitter, LinkedIn)

Data as of mid-December 2022

International travels

► IVES' staff and board members traveled for communication purposes in different countries: **USA** (California), **Germany** (Neustadt, linked to the IVAS Conference), **France** (Dijon, linked to the WAC Conference and Bordeaux, linked to the Vinitech trade show) and **South Africa**. It has been a very efficient way to strengthen the link with existing members and partners and to develop IVES' network in these countries (see new members and partners).

Reviewing process

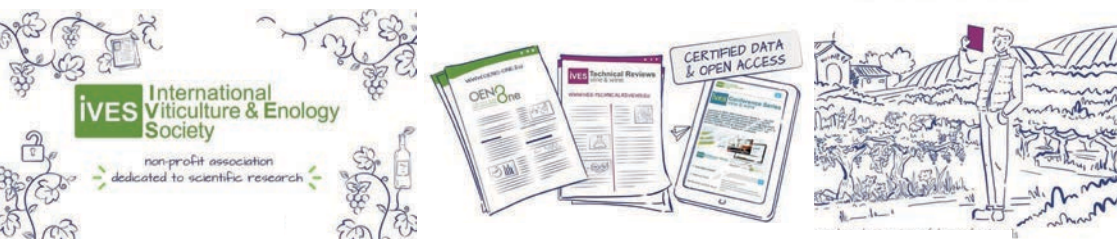

► **Reviewers** are thanked for their involvement by receiving a bottle of wine. This represented approximately 120 bottles of wine sent in 2022.

Videos, podcasts & posters

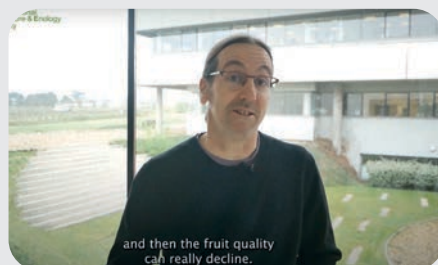

- Creation of a video (motion design) presenting IVES and its objectives and values.

This video was 100 % produced in-house using the skills of the team.

- 4 videos promoting articles published in OENO One and IVES Technical Reviews.

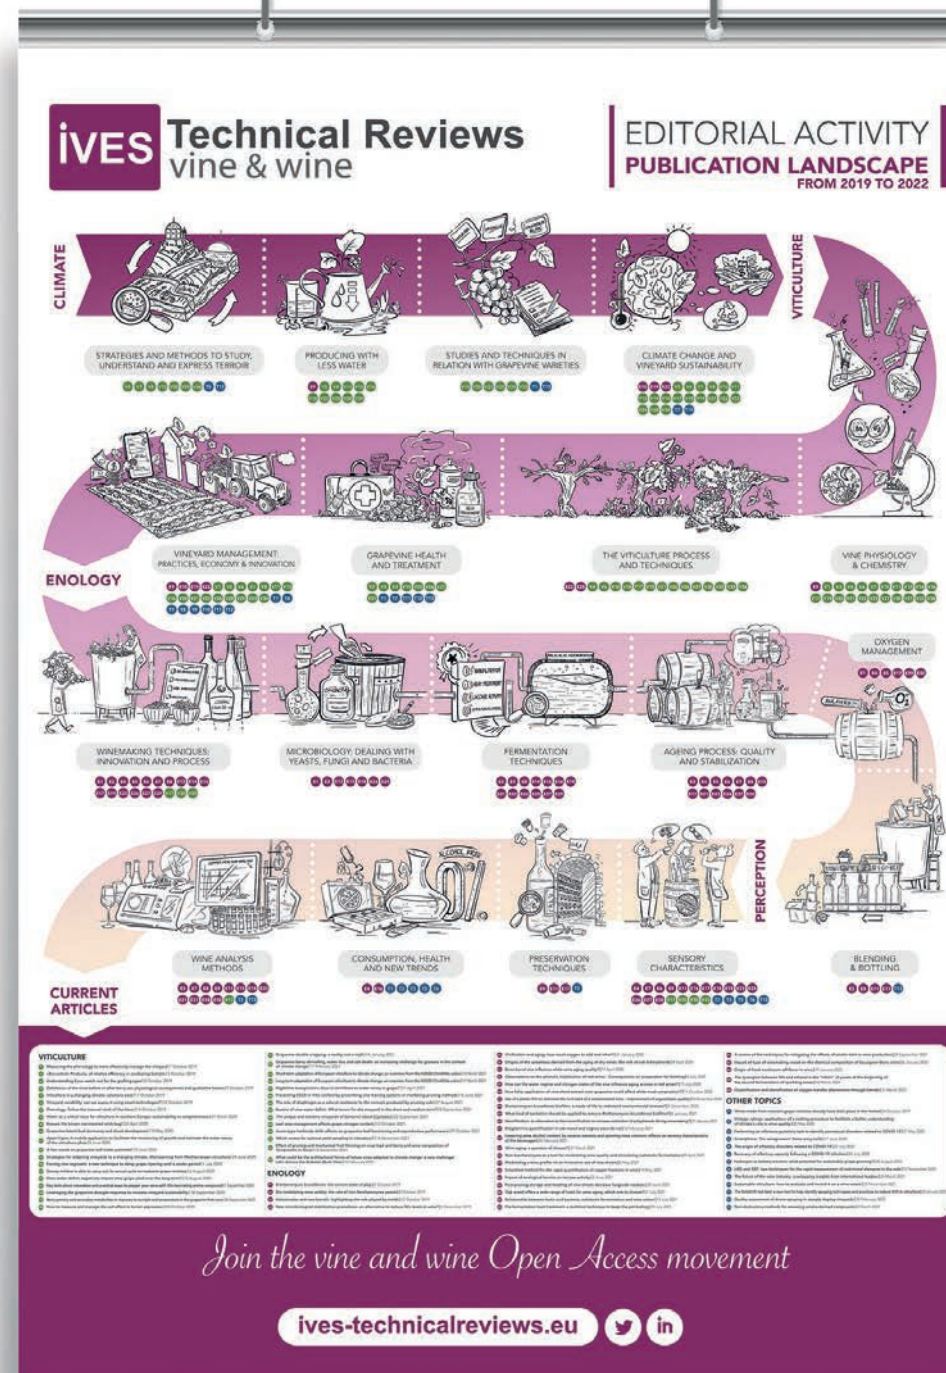

1. Global warming and wine quality: are we close to the tipping point? / Gregory Gambetta
2. The techniques for mitigating the effects of smoke taint in wine production / António Graça
3. Grapevine trunk diseases in the vineyard / Florence Fontaine
4. Cover crops in viticulture: a systematic review / Gonzaga Santesteban

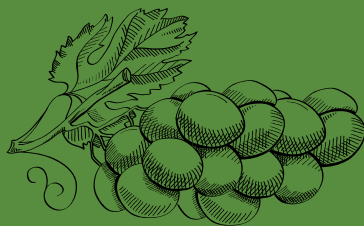

- 2 podcasts recorded in collaboration with The Art of Selling Wine by Diego Weber.

- Cutting edge wine research with Julien Dumercq from IVES.
- Research on delaying budbreak and harvest with Alain Deloire from l'Institut Agro, Montpellier.

Watch the videos on [Youtube](#) and listen to the podcasts on [Spotify](#) & [Apple podcasts](#).

- Creation of a poster presenting the publication landscape of IVES Technical Reviews (see above) and creation of a poster presenting IVES and its members.
